RE: Foundation Work at 1809

Dear Linda:

At the request of Mr. Roy Harthorn we have reviewed our files concerning the plans and work done to reconstruct, perform a seismic retrofit and underpin the foundation for 1809 Stanwood Drive. Our plans of May 14, 2003, were originally for address 1801 Sycamore Canyon, however, we understand that this same parcel is also known as 1809 Stanwood Drive.

Based our review of the plans and our site visits during construction in June 2003 we conclude that the foundation work was accomplished in substantial compliance with our plans.

Sincerely,

Charles Grant R.E. 60362
Project Engineer
